This lake front is located in a peaceful neighborhood at the end of a quiet road where car traffic is almost non-existent. It's a beautiful setting and the lot is level. There aren't any steep hills on this road and the level driveway is big enough to park four cars. The lake location is quiet too because this is a five mile per hour zone where boats are required to go slow. This means that if you like to kayak or paddle board you'll love it here. The current owners have completed some great improvements including a newer roof and energy saving solar panels. They also added vinyl siding and a heat pump heating and air conditioning system. In addition a four bedroom septic system was installed when they purchased the property in 2022. And if you have water toys the 50 foot long dock can provide docking for all of them. Inside four bedrooms and three full bathrooms provide comfortable accommodations for overnight guests. A one car attached garage provides lots of storage space and the huge fenced in yard is great for pets and summer fun activities.
